

Geophysical investigation history scheme of the project area.

K-43- (Pulkovo 1942)

Archives of The Kirghiz State Geological Agency.

1. Marinchenko G.G. (1993) High-precision altitude aeromagnetic survey of territory of Kyrgyzstan on works executed in 1987-1993. Scale 1:200 000.

2. Malomuzh A.A., Gerekhin V.M. (1984) The report on integrated geophysical researches in limits of a central part Kirghiz range in 1981-84 years. (Gravimeter survey Scale 1:200 000).

3. Lyutikov A.G. (1982) The report on integrated geophysical researches in limits of seismic zones of Kirghizia. (Aero-gamma spectrometric survey and magnetic survey Scale 1:50 000)
.Areal reflection survey

4. Pavlenkin A.D. et al. (1973) The report on results of geophysical researches under the program of seismic study of Frunze city area. profile refraction survey

5. Chekina S.A. et al. (1975) Results of the geophysical researches on the Alaarcha reservoir area. areal and profile electrical sounding survey.

6. Chekina S.A. et al. (1983) Results of geophysical researches of the Suusamyr artesian basin.

7. Judakhin F.N. et al. (1968) Deep geological structure of the Chu basin on the complex geological and geophysical data.
