

Geophysical investigation history scheme of the project area. K-43 (Pulkovo, 1942)

Archives of the Kyrgyz State Geological Agency

1. Beskrovnyi A.M., Mitroshin V.I., Nurimbetov M. (1961). Identification of major geological structures of the Paleozoic basement in the Talas, Ketmen-Tyube, Suusamy, Kochkor, Jungal, Sonkul, Aksai, Arpa basins and the Eastern part of the Fergana Basin. Report of the Aeromagnetic Department on the investigations in 1959. Scale 1:100000.

2. Revenkova Z.I., Lobanchenko A.N. (1970). Report on the results of an aeromagnetic survey at a scale 1:50000 carried out within the area of Sheet K-43-XIV.

3. Latyshev V.N., Lazebnik V.P., Ilchenko G.I. (1981). Report on the results of complex geophysical researches at a scale 1:25000 within the mountain frame of the eastern part of the Talas Basin carried out in 1978-1981.

4. Chekina S.A., Milkin A.N. (1987). Abyssal geological structure and thickness of coarse sediments in the Suusamy, Sonkul and Toguz-Torou basins. Report on the results of complex geophysical researches at a scale 1:100000 carried out in 1979-1987.

5. Ilchenko G.I., Kulik A.P. (1989). Gravimetric survey at a scale 1:200000 in the area of sheets: K-42-XXIV, K-43-XIII, K-43-XIV. Report of the Kyrgyz Specialized Gravimetric Department #18 on the results of investigations carried out in 1986-1989.

6. Ilchenko G.I., Kulik A.P. (1991). Gravimetric survey at a scale 1:200000 in the area of sheets: K-43-XIX, K-43-XX, K-43-XXI, K-43-XXVI, K-43-XXVII. Report of the Kyrgyz Specialized Gravimetric Department #18 on the results of investigations carried out in 1987-

7. Lobanchenko A.N., Ovsyannikov L.S., Latyshev V.N., Marinchenko G.G. (1999). Generalization and reinterpretation of geophysical materials on the Chatkal, Kassan and Talas regions. Report of the Kyrgyz Geophysical Expedition on the investigations carried out in 1997-1999.

8. Marinchenko G.G. (1993). High-accuracy altitude aeromagnetic survey at a scale 1:200000 of the Kyrgyz Territory. Report of the "Gera" Enterprise on the results of investigations carried out in 1987-1993.
