

Subjects research history scheme of the project area.

K-44 (Pulkovo, 1942)

1. Streltsov E.A., Semiletov D.K. (1970). Hydrogeological conditions of the Saryjaz tin region. Final report of the Balykchi Hydrogeological Department on researches carried out in 1967-1969. Frunze. Archives of the State Geological Agency of the Kyrgyz Republic.

2. Turbin L.I. (editor), (1966). Quaternary sediments, geomorphology and recent tectonics of the North-Eastern Kyrgyzstan. Report of the Tien-Shan Department within the Administration of Geology of the Kyrgyz SSR and the Quaternary Department within the Moscow State University for the period of 1957-1965. Scale 1:500 000. Frunze-Moscow. Archives of the State Geological Agency of the Kyrgyz Republic.

3. Semyonov Yu.L. (1973). Ultrabasic and basic magmatic complexes of Tien-Shan and mineral resources related to them. Report on Theme 81 for the period of 1969-1973. VSEGEI, Leningrad, 448 p.

4. Dodonova T.A. (editor), (1974). Magmatism of the north-eastern part of the Kyrgyz SSR. Report of the Petrologic Department on researches carried out in 1964-1968. Frunze. Archives of the State Geological Agency of the Kyrgyz Republic.

5. Solomovich L.I. (editor), (1979). Petrology and metallogeny of granitoids in the Saryjaz River headstream (Kensu area). Frunze. Archives of the State Geological Agency of the Kyrgyz Republic.

6. Biske G.S., Porshnyakov G.S., Zubitsov S.E., Yagovkin A.V. (1979). The Paleozoic of the eastern sector of the Southern Tien-Shan. Report on researches "Investigation of stratigraphy and tectonics of the Paleozoic of the Atbashi - Inylchek region" carried out in 1975-79. Leningrad, 358 p. Frunze. Archives of the State Geological Agency of the Kyrgyz Republic.

7. Solomovich L.I. (editor), (1981). Petrology and metallogeny of granitoids in the Saryjaz River headstream (Turegeldy area). Frunze. Archives of the State Geological Agency of the Kyrgyz Republic.

8. Ramankulov B.A., Tolmats V.Yu. (1981). Report on results of preliminary exploration of underground water in the Inylchek River basin. Scale 1: 50 000. Frunze. Archives of the State Geological Agency of the Kyrgyz Republic.

9. Solomovich L.I. (editor), (1983). Mechanism of formation, search features and prospects of gold mineralization in the Saryjaz region. Frunze. Archives of the State Geological Agency of the Kyrgyz Republic.

10. Klishevich V.L. (1988). To elaborate and apply the chart of zonation and correlation of the Tien-Shan Early Paleozoic as a basis to create key legends for "State Geological Map-50". Report on Job Ticket 1423424/231 for the period of 1985-1988. Leningrad, VSEGEI.

11. Chernyshuk V.P., Jenchuraeva A.V., Guschin S.B. (1989). Stratigraphy of the Paleozoic of the Terskei Alatau, Akshiryak, Kuilyu rahges. Frunze. Archives of the State Geological Agency of the Kyrgyz Republic.

12. Khrstov E.V. (1989). Initial materials to the publication "Khrstov E.V. New data about age and a tectonic position of Paleozoic deposits of a Khan - Tengri mountain massif// Doklady AS of USSR. 1989, v.306, #1, pp. 166 -168"

13. Chernyshuk V.P. (1991). Report on the theme: Creation of regional stratigraphic charts of the Lower Paleozoic of Kyrgyzstan. Bishkek. 20 p. Archives of the State Geological Agency of the Kyrgyz Republic.

14. Chernyshuk V.P. (1992). Draft key legend to geological maps at a scale 1:50000 of the Saryjaz geological and economic region. Bishkek. Archives of the State Geological Agency of the Kyrgyz Republic.

15. Skrynnik L.I. (editor), (1995). Elaboration of a stratigraphic chart of Carboniferous and Permian volcanic sediments in the South-Eastern Kazakhstan. Almaty. 227p. "Geoinform". Republic Kazakhstan, Kokchetav.

16. Esmintsev A.N. (2007). Geodynamics of the Phanerozoic of the Central Tien-Shan (Bayankol region). PhD thesis within the geological-mineralogic department. Almaty.

17. Korolyov V.G. (1954). Geological structure of the Terskei Range eastern part. Institute of Geology. Academy of Sciences of the Kyrgyz Republic. Frunze.
